### PROFESSIONAL SUMMARY

Detail-oriented and versatile Full-Stack Web/Mobile Developer with 5+ years of hands-on experience in designing, building, and optimizing scalable web applications. Skilled at turning complex requirements into clean, responsive, and secure digital solutions. A fast learner and creative problem solver.

### CORE SKILLS

Programming: HTML, CSS, JavaScript, PHP, Dart, Python

Frameworks: Laravel, React.js, Tailwind CSS, Symfony, Node.js, Typescript, React Native, Flutter, jQuery

Databases: MySQL, Supabase, PostgreSQL, SQLite, Firebase, MongoDB, Redis

Tools: Git, Expo, Docker, AWS, WebSocket, GraphQL, Webpack, Vite

### WORK EXPERIENCE

#### Senior Developer - Freelancing (2023 - Present)

Designed and developed scalable web and mobile applications using modern frameworks and API-driven architectures.

- Built CMS dashboards, optimized landing pages, and improved SEO rankings.
- Built and integrated RESTful APIs, third-party APIs, and internal microservices to power business-critical applications.
- Configured domains, backups, and system reliability measures.
- Engineered high-performance back-end systems using PHP (PDO), Laravel, Node.js, MySQL, PostgreSQL, and Redis.
- Designed and developed a Bill Payment App, supporting airtime, data, electricity, and wallet funding with secure authentication.
- Implemented PHP/MySQL backend, token-based login, PIN screen security, and real-time transaction history.
- Built the entire mobile app using React Native (Expo), ensuring smooth UI and fast performance.

#### Team Leader / Lead Developer (2021 - 2023)

- Led a team of developers and designers to deliver high-quality web and mobile projects on schedule.
- Conducted code reviews and enforced coding standards to improve code quality and maintainability.
- Assigned tasks, monitored progress, and ensured smooth collaboration across departments.
- Mentored junior developers and provided guidance on best practices, architecture, and problem-solving.
- Coordinated with clients to gather requirements and translate them into actionable technical tasks.
- Oversaw deployment, testing, and debugging processes for multiple ongoing projects.

#### Junior Developer (2019 - 2023)

- Assisted in developing responsive web pages using HTML, CSS, JavaScript, and PHP.
- Fixed bugs, improved UI/UX, and optimized front-end performance across various devices.
- Supported senior developers by writing clean, modular, and well-tested code. Collaborated in team meetings, sprint discussions, and code review sessions.
- Documented development processes and shared technical notes with the team.
- Learned modern frameworks and tools, contributing to overall team efficiency.

## EDUCATION/CERTIFICATIONS

Diploma in Computer Science - IMT Enugu (2020-2022) Web

Development Certification - Ozone ICT (2019-2020)

Second Diploma in Computer Science - IMT Enugu (2023-2025)

## SOME ACCOMPLISHMENTS

- Successfully built and deployed Cheapdue Bill Payment App, enabling secure airtime, data, electricity, and wallet funding for users.
- Increased website and application performance by up to 60% through caching, optimization, and API restructuring.
- Reduced API response time by 40% by optimizing database queries and implementing efficient endpoints.
- Developed multiple responsive websites and apps used by hundreds of daily users. Built reusable modules and API wrappers that reduced development time for future projects by 30%. Implemented robust authentication systems (token-based login, PIN lock screen, role-based access), improving platform security.
- Successfully led a development team, completing projects ahead of schedule while ensuring high-quality delivery.
- Trained and mentored junior developers, improving team productivity and coding standards.
- Improved SEO and site structure, boosting client website traffic by 70% within 3 months.
- Strengthened web and app security using encryption, validation, API rate-limiting, and secure coding practices.

## HOBBIES

Reading, coding, music.
